The History of Doctors' Day: The first Doctors' Day observance was March 30, 1933 in Winder, Georgia. Eudora Brown Almond, wife of Dr. Charles B. Almond, decided to set aside a day to honor physicians. The red carnation is commonly used as the symbolic flower for National Doctors' Day. On March 30, 1958, a Resolution Commemorating Doctors' Day was adopted by the U.S. House of Representatives. In 1990, legislation was introduced in the House and Senate to establish a national Doctor's Day. Following overwhelming approval by the U.S. Senate and the House of Representatives, on October 30, 1990, President George Bush signed S.J. RES. #366 (which became Public Law 101-473) designating March 30th as "National Doctor's Day."
