

# I GOT MY AWARD! ... NOW WHAT?

*PostAward Management for Principal Investigators*

**January 31, 2018, 4:00-5:00 P.M.**  
**University of Arizona College of Medicine, Room 5403**

As a Principal Investigator, managing your award requires more than just overseeing the research. You also play a critical role in managing the expenditure of funds and keeping up with progress reports. This panel discussion will provide you with an overview of how postaward management works at the University of Arizona from the moment you receive the award notice. We'll address your specific responsibilities as a PI, and highlight the various roles that departmental, college, and central administrative staff play to aid in managing your award. Additional topics include:

- How to manage your award efficiently so you have more time for the research
- How to stay on top of expenditure reviews
- How to keep up with progress reports and maintain communication with your sponsor
- How to appropriately delegate tasks to your research administrator(s)

Unable to attend in person?
